-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 17 and 19-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rackley.

Rackley teaches the claimed "article" in the form of a ligature which, in column 2, is taught to be made from thermoplastic fluoropolymers and is exemplified in Examples 18 and 19 as polytetrafluoroethylene. The use of other known thermoplastic fluoropolymers from the genus disclosed would be prima facie obvious to one of ordinary skill in the art from the teaching of the reference, and is motivated by the generic teaching. Further characteristics of the claims would be inherent in the materials chosen and are, therefore, also rendered obvious from the reference. Applicants, claims are, therefore, prima facie obvious and properly rejected under 35 USC 103 over reference to Rackley.

3. Claims 1-16 and 18 are allowed.

Although the prior art teaches the use of fluoropolymers for certain parts related to orthodontic practices, nowhere is there taught or suggested that the bracket used be constructed of said polymers. The claimed brackets are, therefore, both novel and unobvious over the closest prior art as cited.
